Special Issue

Shared Mobility and Sustainable Transportation

Message from the Guest Editors

Shared mobility has grown significantly over the past few years as a result of increased commitment to creating more sustainable transportation as well as advances in location-based services, and mobile technologies. To date, several environmental, social, and transportationrelated benefits have been reported from the use of shared mobility modes. This Special Issue aims to bring together theoretical and empirical studies on outcomes of new shared mobility and micromobility devices across urban areas around the world. We invite papers that address a range of topics related to shared mobility and sustainable transportation. We are striving to contribute to the scholarly and practical knowledge relevant to both urban planning and sustainable transportation. Possible topics may include but are not limited to:

- Shared mobility and travel behaviors;
- Shared mobility and air pollution;
- Shared mobility and traffic safety;
- Micromobility impacts on the future of public transport systems.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
