

Special Issue

Sustainable and Resilient Infrastructure for the Next Generation

Message from the Guest Editor

The International Symposia for Next-Generation Infrastructure (ISNGI) provide a platform for infrastructure systems' research and practice, and especially for transdisciplinary research that seeks to conceptualise, enact and model an integrative and system-of-systems approach to infrastructure. This Special Issue draws together a selection of the contributions received for ISNGI 2022, held on the 7–9 September in Rotterdam.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon
School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
