

## Special Issue

# Sustainability in the Mining, Minerals and Energy Industries

### Message from the Guest Editors

Sustainability has become a key issue, or catch-cry, for many industries globally. However, perhaps with regards to their potential direct impacts and potential for improvement or enhancement of benefits to society, economy, and the environment, the mining, mineral, and energy sectors have one of the most important roles to play. The contributions of these sectors continue to be crucial for the provision of resources and the power to drive society and development. At the same time, there are obvious issues of environmental, social, and economic harm and mismanagement that need to be addressed. This Special Issue seeks papers considering the sustainability contributions of these sectors from theoretical and practical viewpoints. Case studies, frameworks and evaluations of sustainable development of the industry at various scales would be welcomed.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
