

Special Issue

To Practice Sustainability in Architecture and Urbanism: Contemporary Approaches

Message from the Guest Editors

The aim of this special issue is: to establish a bridge between theory and practice in the built environment by examining in-depth the consequences for citizens. Any of the latest research findings and innovative approaches, will help to redefine contemporary built environments in relation to the different perspectives. A broad outline of the special issue's scope includes peer-reviewed original research articles, case and technical reports, reviews and analyses. All scholars, practitioners, and policymakers with a common interest to study architecture and urban design from different perspectives are invited to contribute for that. An interaction with different intertwined fields including economy, architecture, engineering, sociology, anthropology, cultural studies, and digital studies, is expected.

Guest Editors

Prof. Dr. José Manuel Pagés Madrigal

Prof. Dr. Islam H. El Ghonaimy

Prof. Dr. Igor Calzada

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen
