

Special Issue

Addressing Sustainability at a Community Scale

Message from the Guest Editor

The following topics are welcome in this special issue:

- Carbon neutrality design approaches that go beyond building scale
- Addressing the nexus of mobility, energy and health
- Meeting social, economic and environmental needs through collective means
- Net zero carbon emissions and circular economy
- Community initiatives that address the sustainability of key resources such as energy and water
- Community engagement and their contribution to addressing sustainability issues
- Smart technology and their contribution to addressing sustainability issues in a community
- District and neighbourhood sustainable or carbon neutral design or retrofit
- Standards and performance assessment for communities
- Contribution of communities to the sustainability and resilience of cities

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
