

Special Issue

Sustainability and the Global Pandemic: Issues, Policies and Strategies

Message from the Guest Editor

The purpose of this Special Issue of *Sustainability* is to capture the global pandemic year from a sustainability perspective. The scope of the issue will be responses to the pandemic, from the perspectives of any and all disciplines. The issue is purposely designed to attract publications from a diverse range of disciplines, from medical to political, legal to scientific, and everything in between. The focus of the issue is establishing within the literature how we have responded to this first year in the pandemic—socially, culturally, medically, legally, scientifically, etc., within the sphere of sustainability. There are many definitions of sustainability, and therefore, in this Special Issue, the definition of sustainability is given its widest possible meaning.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
