

## Special Issue

# Sustainability Perspectives on Health Care: Exploring the Contours of a Novel Field

### Message from the Guest Editors

This special issue presents a glimpse of the many issues and topics that sustainability perspectives on healthcare may give rise to, with a threefold focus on (a) the sustainability of the health system itself; (b) coupled food systems–health systems transformations; and (c) coupled living environments–health systems transformations. It explores and draws together a variety of different engagements with health and sustainability as a research topic and field to chart new terrain to inspire future scholarly investigations of health and sustainability from a wide variety of (inter-/trans-)disciplinary perspectives. To do so, we invite papers that contribute to this ambitions on the basis of empirical investigations and/or theoretical innovations and/or in-depth literature reviews.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
