

## Special Issue

# Sustainability Perspectives on Health Care: Exploring the Contours of a Novel Field

### Message from the Guest Editors

This special issue presents a glimpse of the many issues and topics that sustainability perspectives on healthcare may give rise to, with a threefold focus on (a) the sustainability of the health system itself; (b) coupled food systems–health systems transformations; and (c) coupled living environments–health systems transformations. It explores and draws together a variety of different engagements with health and sustainability as a research topic and field to chart new terrain to inspire future scholarly investigations of health and sustainability from a wide variety of (inter-/trans-)disciplinary perspectives. To do so, we invite papers that contribute to this ambitions on the basis of empirical investigations and/or theoretical innovations and/or in-depth literature reviews.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
