Sustainability, Motivation and the Teaching-Learning Process in Physical Education and Sport

Message from the Collection Editors

The aim of any learning process must include the sustainability of the learning outcomes over time. When considering these learning outcomes, motivation is a crucial influential factor in the subject's behavior and, together with the application of different teaching methods, will determine the success (adherence) or failure (drop out) of the practice of physical activity and sport. The purpose of this Special Issue of *Sustainability* is to gather the scientific progress on the importance of the application of different teaching methodologies as well as the development of motivational processes in the educational context (primary, secondary, and higher education) and in the extracurricular sports context. To consider these issues, the academic performance of students in the classroom could be analyzed alongside the social, emotional, cognitive, and biological aspects that determine the commitment to physical exercise and sports.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
