

## Special Issue

# Sustainability and Resiliency under Multi-Hazards

### Message from the Guest Editors

In this Special Issue, we solicit high-quality original research articles focused on the state-of-the-art techniques and methods employing sustainability, resilience, and risk analysis of structures and infrastructures under multi-hazards. Topics of interest include, but are not limited to:

- Sustainable and resilient building design systems;
- Community resilience and sustainable planning;
- Sustainable and resilient design of infrastructural components;
- Sustainable and resilient design of infrastructural networks;
- Case studies and validations of sustainable and resilient systems;
- Cloud-based sustainable and resilient design or assessment platforms;
- Influence of social and economic sectors in sustainable and resilient systems;
- Risk and resiliency of bridges, dams, nuclear power plants, and transportation networks.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Marc A. Rosen

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
