Special Issue

Sustainability in Emergency Supply Chain Management

Message from the Guest Editors

Because of the outbreak of COVID-19, the world is witnessing an unprecedented upheaval in the supply chain. This upheaval increases the risk of the disruption of the supply chain. The supply chain plays an important role in ensuring the efficiency of social emergency responses. Therefore, improving its sustainability is an important means to restore world economic development.

In addition, the deterioration of the global environment puts forward important requirements for the green supply chain, while focusing on the efficiency of emergency response, the impact of the emergency supply chain on environmental sustainability should also be considered.

Topics of interest include but are not limited to the following:

Supply chain complexity in emergency issues; Supply chain complexity in sustainable supply chains; Emergency supply chain management and its sustainability;

Sustainable logistics management and operations; Collaborative modelling for multi-objective optimization for sustainable emergency logistics;

Supply chain resilience;

Supply chain design, optimization, and data-driven modeling with consideration of sustainability; Other related research topics.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
