# Sustainability vs Food Safety: What Are the Trade-Offs

### Message from the Guest Editors

We welcome papers that look specifically at the sustainability-food safety trade-offs along the whole value chain from production to consumption. For example, a non-exclusive list of relevant topics follows:

- Labelling and marketing campaigns effect on consumers sustainability and food safety trade-off
- Suboptimal food and food safety
- Sustainable food handling practices (in production, retail, or by consumers') effect on food safety.
- Consumers sensory evaluation of food waste and food safety
- At-risk groups trade-offs of food safety and sustainability
- Sustainability and food safety beliefs effect on behavior.
- Food packaging and food safety
- Sustainability and safety trade-offs within retail and distribution.
- Circular economy and food safety

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
