Special Issue

Sustainability in Urban Horticulture

Message from the Guest Editors

We are pleased to announce the opening of a new Special Issue focusing on Urban Horticulture in a pathway of real sustainability. Urban Agriculture was formally recognized for the first time in 1996 at United Nations International Conference on Human Habitats in Istanbul, where its contribution to the health and welfare of fast-growing urban populations worldwide was underlined. The aim of this Special Issue is to highlight the social, economic, cultural, political, health, and wellbeing implications, impacts, and outcomes of urban horticulture. By highlighting these outcomes, this Special Issue will be used to shine a light on the significance of agricultural activities/settings in an urban area to inform and influence policy and practice globally. This Special Issue invites researchers of any discipline that focus on urban horticulture, including but not exclusive to urban planning/agriculture, social science. public health, and environmental science. Furfurther reading, please visit the Special Issue Website.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
