

Special Issue

Sustainable Transportation Infrastructure Provision in Megacities of the Developing World

Message from the Guest Editors

This Special Issue focuses on the latest research conducted in the field of sustainable transportation infrastructure provision for megacities of the developing world. The aim is to present the current and potential future state(s) of transportation infrastructure provision paradigms, therein highlighting a range of methodological processes (including indicators, metrics and benchmarks) used to measure and evaluate the sustainability pillars and drivers for change (i.e., societal, technological, economic, environmental, political and organisational). Both original research and review papers are welcome.

- sustainable assessment
- multi-criteria analysis
- predictive transportation modelling
- spatial-temporal dynamics
- driver behaviour
- transport
- mobility infrastructures
- land use
- land cover change
- urban growth dynamics
- sustainable future cities

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
