

## Special Issue

# Frontiers in Sustainable Agroecosystems Design and Management

### Message from the Guest Editors

Nowadays, a major challenge is ensuring food security, especially because of the impacts of climate change, an increasing human population, environmental protection, and economic and energy crises. Agricultural production has evolved from a purely technical focus to a more complex system characterized by social, cultural, political, and economic dimensions and changes. These agricultural production challenges can be addressed by ensuring the sustainability of such systems by adopting innovative approaches (knowledge and methodology) in developing agriculture that are environmentally friendly yet highly productive, socially equitable, and economically viable... Dr. Darija Lemic

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
