

Special Issue

Sustainable Chemistry in Construction

Message from the Guest Editors

The sustainability issue is of a paramount importance in the last decades, especially in the context of climate change and global warming. It motivates the scientists worldwide in cross-disciplinary fields, such as social, natural, humanitarian and engineering sciences to perform scientific predictions and impact assessments of global change and development.

The design of products and processes that minimize or eliminate the use and generation of hazardous substances to humans, animals, plants, and the environment is of extreme importance. Novel experimental and methodical details are constantly provided and results are reproduced on a daily basis. For this reason, we would like to invite you to contribute to this Special Issue with your valuable unpublished research that can find a world-wide audience among readers of Sustainability.

Keywords:

- Sustainable chemistry and engineering
- Toxic chemicals, hazardous and radioactive wastes
- New and renewable sources of energy
- Sustainable (bio)polymers and materials
- Biomass or wastes as resources
- Green processes, technologies, and manufacturing
- Cleaner synthetic methods

Guest Editors

Prof. Dr. Tony Venelinov

Chair of Water Supply, Sewerage, Water and Wastewater Treatment, Faculty of Hydraulic Engineering, University of Architecture, Civil Engineering and Geodesy, 1046 Sofia, Bulgaria

Assoc. Prof. Dr. Ivan Rostovsky

Chair of Building Materials and Insulations, University of Architecture, Civil Engineering and Geodesy, Sofia 1164, Bulgaria

Deadline for manuscript submissions

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
