# **Special Issue**

# Sustainable Cities in the Pandemic Era: Rethinking Transportation, Land Use, and Health

# Message from the Guest Editors

This Special Issue entitled "Sustainable Cities in the Pandemic Era: Rethinking Transportation, Land Use, and Health" will approach a wide range of topics that will help readers to understand the impact of the current and future impact of pandemics on cities. This Special Issue welcomes papers on the likely effects of the pandemic on transportation, land use, and infrastructure planning. Papers examining inequities within cities in housing, transportation, food, and health access due to the pandemic are also welcome. Contributions related to the future of food systems, infrastructure, and land use planning will also be useful. Papers examining the ways in which cities evolve to meet sustainability goals in the context of the pandemic are especially welcome. We also invite papers that outline the processes related to the interdisciplinary collaboration necessary for planning for sustainable cities in this new era. These papers may represent case studies from any part of the world, but the challenges of the Global South would be especially welcome.

# **About the Journal**

# Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

# Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

### **Author Benefits**

# Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

# **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
