

Special Issue

Sustainable Communication Networks

Message from the Guest Editor

This Special Issue is dedicated to sustainable communication networks. On one side, communication networks can be designed with sustainability in mind—they can be resource-efficient, interoperable or open. On the other side, communication networks have also the potential to improve sustainability in other areas, such as agriculture, environmental monitoring, health monitoring, etc. In this Special Issue, we would like to span all these areas and show how, broadly, various types of communication networks can be used to support a more sustainable life on Earth.

Guest Editor

Prof. Dr. Anna Förster

Sustainable Communication Networks, Faculty of Physics and Electrical Engineering
University of Bremen, NW1, Otto-Hahn-Allee 1, 28359 Bremen, Germany

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
