

## Special Issue

# Challenges and Innovations in Sustainable and Community-Based Tourism

### Message from the Guest Editor

The main concept of community-based tourism is the involvement of the host community in planning and maintaining tourism development to create a more sustainable industry. Innovation and creativity in tourism and hospitality have become significant and complex tasks due to the competitive tourism destination market in general and particularly due to sustainable tourism destinations. The aim of this Special Issue is to examine the challenges and role of innovation and creativity in planning, developing, and operating a sustainable tourism inspired by local environment, culture, history, and tradition, and offering guests an opportunity to feel connected to the local community. For further reading, please visit the [Special Issue Website](#).

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
