

## Special Issue

# Sustainable Data Science and Machine Learning for Business, Research and Innovation

### Message from the Guest Editor

Information systems and data science have contributed significantly to Sustainability Research in the last decade. The latest arrivals in the domains, including cyberphysical systems, artificial intelligence, edge computing, quantum computing, and sentiment and behavioral analysis, provide a brand-new context for Sustainability Research. To this end, the of this Special Issue seek papers that address, but are not limited to, the following issues and aspects related to the diverse aspects of Sustainable Data Science Research:

- Data Science Topics
- Analytics Research for Sustainability
- Industry Applications and Tools
- Policy Making for Data Science and Regional Studies
- R&D Projects Dissemination

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

---

### Editor-in-Chief

Prof. Dr. Steve W. Lyon  
School of Environment and Natural Resources, Ohio State University,  
Columbus, OH 43210, USA

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
