

## Special Issue

# Sustainable and Safe Road User Behaviour

### Message from the Guest Editors

Sustainable driving behavior research is characterized by multidisciplinary. For a better understanding of sustainable driving behavior, we need to explore psychological, social, environmental, and technological factors, as well as the interplay between them. The current Special Issue aims to offer a clear, wide perspective of the determinants and consequences of sustainable driving behaviors in terms of safety on the road.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
