# Sustainable Food System in the European Union

### Message from the Guest Editors

Among the efforts to tackle climate and environmental challenges, the European Green Deal (EGD) plays an important role proposing a holistic approach in which all European actions and policies contribute to the objectives of the Green Deal itself. The EGD plans new, sustainable and inclusive growth strategies to enhance the economy, people's health and quality of life, taking care for nature, and leaving no one behind. The Farm to Fork (F2F) Strategy is one of the EGD strategies focused on sustainable food systems and the complex links between healthy people, healthy societies and a healthy planet. The F2F strategy, while emphasizing the awareness that food systems remain one of the key drivers of climate change and environmental degradation, highlights the need of transition towards a green agri-food system...

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
