## **Special Issue**

# Sustainable Fruit Growing: From Orchard to Table II

## Message from the Guest Editor

After the successful first edition of the Special Issue "Sustainable Fruit Growing: From Orchard to Table", we are launching the second issue. Population growth and changing and improved diets with a higher proportion of fruit consumption have led to the expansion of orchards. but also to the introduction of new technologies that improve yields and fruit quality, often neglecting the principle of sustainability. This Special Issue addresses various aspects that can improve sustainable production, such as the possibility of introducing new fruit species into production, breeding and genetic improvement of cultivars and rootstocks, reducing the environmental stress to which plants and fruits are exposed, deepening the knowledge of the relationship between genotype and environment, propagation of fruit plants, reducing the chemical load on the environment, increasing fruit safety and security, controlling pests and diseases more efficiently, developing new cultivation technologies, and postharvest methods. The results of original research are welcome, and the submission of review papers by leading experts in these fields is also highly encouraged.

#### **Guest Editor**

Prof. Dr. Boris Duralija

Department of Pomology, Division of Horticulture and Landscape Architecture, University of Zagreb Faculty of Agriculture, Svetošimunska Cesta 25, 10000 Zagreb, Croatia

## **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

#### **Author Benefits**

## Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
