Sustainable Leadership: Crossing Silos in Leadership Research and Practice

Message from the Guest Editor

In today's dynamic, disruptive, and constantly evolving business landscapes, corporations are confronted with the imperative of embracing new realities and successfully navigating change (Bodolica and Spraggon, 2020). Under these specific environmental conditions, challenges associated with leadership, management, and decision making abound.

We welcome a variety of contributions in relation to sustainable leadership, from the perspective of both theoretical frameworks and methodological approaches. Highlighting the diversity of manifestations in which leadership can build long-term value for a sustainable enterprise, qualitative (Bodolica et al., 2015), quantitative (Spraggon and Bodolica, 2011), conceptual (Spraggon and Bodolica, 2018) and literature review (Bodolica and Spraggon, 2018) articles are equally relevant for achieving the objectives of this Special Issue. Our aim is to create a fruitful platform for the development of a context-dependent knowledge base on the theory and practice of sustainable leadership from the standpoint of decision makers in public and private businesses and institutions.

Guest Editor

Prof. Dr. Virginia Bodolica

The Said T. Khoury Chair of Leadership Studies, American University of Sharjah, Sharjah 26666, UAE

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits
