

Special Issue

Digitalization in Logistics to Realize Sustainable Development

Message from the Guest Editor

The digitalization in logistics is becoming one of the most powerful trends in various industries. It will transfer the value-added processes along the value stream tremendously in many aspects. Both researchers, and practitioners all over the world continuously report on new projects, possibilities, and innovative solutions with better logistics service levels and lower costs that help to improve economical, ecological, and social conditions.

In this Special Issue, our aim is to collect and publish well-prepared research reports on recent advances in logistics technologies, applications, controlling, governance, and business opportunities to provide our community with an insight into the realized maturity. All types of articles—literature-based, empirical research, case studies—are welcome that deal with innovations, applications, and best practice examples of sustainability.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
