

Special Issue

Sustainable Public Transportation

Message from the Guest Editor

This Special Issue will consist of papers describing the state-of-the-art in sustainable public transportation systems. Activities in the field of public transport, intelligent and integrated transport systems, as well as the practical application of knowledge about passenger transport, design, and operation of public transport systems and processes, contribute to ensuring sustainable public transportation system development. This is achieved by providing conditions for the safe, efficient, and economic public transportation of people that can minimize the negative impact on the environment.

Guest Editor

Prof. Dr. Adam Torok

Department of Transport Technology and Transport Economics,
Budapest University of Technology and Economics, 1111 Budapest,

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
