

Special Issue

Sustainable Soil Health Management

Message from the Guest Editor

I am pleased to announce the opening of a new Special Issue focused on sustainable soil health management for quality crop production and environmental sustainability. Sustainable soil health management includes the application of inorganic and organic soil amendments, biostimulants, microbial inoculants, and environment-friendly agricultural practices. Besides covering these sustainable management practices, other areas that will be covered include the use of new crops such as medicinal plants, soil contaminants management, soil water management for dried environments, management of biodiversity, and economic assessment. Therefore, this Special Issue will publish papers highlighting the significance of agricultural practices, including inputs for sustainable management of soil health, crop productivity, and conservation of the environment. This Special Issue invites papers from researchers and academics of any discipline of agriculture and environment that focus on soil health management for sustainable crop production and environment.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
