

Special Issue

Research on Sustainable Transportation and Urban Traffic

Message from the Guest Editors

The role of transport in sustainable development is fundamental to enhancing economic growth and improving accessibility. The COVID-19 pandemic has further impeded the already slow progress reached in recent years, especially as climate change has continued inexorably. In this Special Issue, research areas may include (but are not limited to) the following:

- IoT sensing, applications, and technologies for smart sustainable cities;
- The use of new devices to evaluate traffic congestion and traffic emission and improve traffic sustainability;
- Intelligent Transport Systems for urban smart mobility;
- New forms of sustainable transport after the restrictions due to the COVID-19 pandemic have lifted;
- Pedestrians' and cyclists' influences on the traffic flow parameters and road safety;
- The effect of autonomous vehicles technology in transport safety and the driving behaviors;
- Big data applications to sustainable transport and traffic control modeling.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
