

Special Issue

Sustainable Travel Development

Message from the Guest Editor

Global tourism has been heavily affected by the COVID-19 pandemic since early 2020. In terms of foresight, many important issues remain unanswered about the influence of sustainable travel development in the future and its real impacts. For this Special Issue, papers that address the following topics, among others, are requested:

- Impacts of sanitary, climate and security changes on tourism (island, mountain, etc.) or travel;
- Impacts of societal changes or global crises on the development of tourism or travel;
- Impacts of the degrowth, anti-marketing and slow-travel movements in global tourism or global travel;
- New communication s and/or connections in sustainable tourism or sustainable travel;
- New tourist behaviours in connection with sustainable tourism or sustainable travel;
- New entrepreneurship, best management practices or actions in sustainable tourism or sustainable travel;
- Other relevant topics related to the subject.

Best regards,

Guest Editor

Prof. Dr. Patrick Bouchet

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen
