

## Special Issue

# Challenges of Sustainable Urban Mobility Planning in Theory and Practice

### Message from the Guest Editors

Whilst not explicitly called Sustainable Urban Mobility Plans (SUMPs), this approach to transport planning has been in existence in the shape of French Plans Déplacement Urbain (PDU), or English Local Transport Plans (LTPs), since the 1990s. As more cities and governments set objectives and targets to reduce pollution from urban transport, improve quality of life in cities and tackle road safety problems, so SUMP has become more well-known and it is now recommended by the European Commission as the core of urban transport planning, in the shape of its Guidelines for Developing and Implementing a Sustainable Urban Mobility Plan. Whilst they highlight some of the challenges in sustainable urban mobility planning, such as scenario testing or measure selection, as might be expected from a set of guidelines, they do not take a critical view of the SUMP process and its component parts, especially in view of the differing planning cultures and administrative contexts of the countries and urban areas in which they are implemented.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

### Author Benefits

#### Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

#### High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

#### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1  
(Geography, Planning and Development)
