

Special Issue

Sustainable Urban Transportation in the Global South – Understanding and Addressing the Challenge

Message from the Guest Editors

Following are some of the issues that the paper submissions may focus on, within the context of sustainable urban transport in the Global South:

- trends in motorization and the use of other urban travel modes
- travel demand management
- urban transport-land use interactions
- urban transport and health, including road safety
- accessibility and active transportation; planning for non-motorized modes
- energy and environmental impacts of urban transport, including air pollution, and climate change
- alternative transport fuel systems, including electric vehicles
- public transit and paratransit
- urban transport impacts for the urban poor; affordability and equity
- metrics and analytical approaches for assessment of sustainable urban transport systems
- policy, decision-making, investments, and institutional mechanisms for sustainable urban transportation

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA
