

## Special Issue

# Synergies between Quality Management and Sustainable Development

### Message from the Guest Editors

Sustainability and Sustainable Development have become core issues in organisational development and improvement. In this context Quality Management principles, systems, practices and tools are of great help. There be considerable opportunities in supporting organisational sustainable development with Quality Management elements. In this sense, this Special Issue is interested in works that study some relationships of quality approaches and sustainability. We are looking for papers with theoretical analyses, empirical studies, quantitative studies, case studies, action researches, etc. since these works deal of some form on the support, synergies, dissonances, etc between quality and sustainability in organizations.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
