

## Special Issue

# Economic and Environmental Concerns Regarding Agri-Food Products Within the Context of Sustainability

### Message from the Guest Editors

Potential research areas may include, but are not limited to:

- The environmental and economic challenges of food production in the sustainability era;
- Evaluating the environmental impact of agri-food products—best practices and policies;
- The role of digital technologies in sustainable agri-food supply chains;
- Innovations in waste reduction and the circular economy in the agri-food sector;
- Digital transformation in the global agricultural supply chains;
- The environmental footprint of agri-food products and the demand for transparency of sustainability metrics;
- Policy and regulatory frameworks for sustainable agri-food systems.

We look forward to your contributions to the development of knowledge on this significant topic.

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
