

Special Issue

Interdisciplinary Explorations in Health and Healthcare: Addressing Complex Challenges for Sustainable Futures

Message from the Guest Editors

This Special Issue of *Sustainability* is dedicated to exploring the interdisciplinary approaches necessary for preparing for the next pandemic, alongside advancing emerging healthcare technologies, ensuring healthcare ethics, addressing health disparities, enhancing health literacy, alleviating disease and suffering, incorporating patient voice in public health research, improving healthcare access, shaping health policy, and addressing environmental health. This Special Issue aims to foster interdisciplinary collaborations that advance sustainable health solutions by aligning these diverse health domains with the UN Sustainable Development Goals. Through the integration of pandemic preparedness, healthcare technologies, ethics, public health, environmental science, policy, and social sciences, we seek to contribute to the development of health systems that are equitable, resilient, and sustainable for all. All manuscripts in this special issue must include a section or content explaining how the paper topic intersects with or relates to a UN Sustainability Goal or Goals.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University,
Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.
