

## Special Issue

# Fuel Consumption and Pollution Emissions under the Sustainable Development Goals

### Message from the Guest Editors

This Special Issue welcomes high-quality, process-oriented, and hypothesis-based submissions that report results from original and novel research and contribute new knowledge to help address problems related to fuel consumption and pollution caused by emissions under the sustainable development goals at a regional or global scale. Discussions of the effects of fuel consumption and pollutant emissions under the sustainable development goals are welcome. Research areas may include (but not limited to) the following:

- Low carbon fuel consumption;
- Clean utilization of fossil fuels;
- Hydrogen fuels;
- Air pollution;
- Emission reduction;
- Harmless treatment of combustion wastes;
- Sustainable development in fuel consumption.
