

Special Issue

Advances in Sustainable Production and Operations Management

Message from the Guest Editors

We cordially invite you to submit original research papers, case studies, and critical reviews that explore the dynamic relationships between sustainability, production, and operations management. This Special Issue encompasses a diverse range of studies, including empirical research, literature reviews, surveys, case studies, expert opinions, and conceptual research. The scope of these studies encompasses all dimensions of sustainable production and operations management, including, but not limited to, the topics delineated below:

- Sustainable operations and production.
- Sustainable operations strategies.
- Digitalization for sustainable operations.
- Sustainable supply chain management and logistics.
- Circular economy and closed-loop systems in operations.
- Sustainability performance measurement and metrics.
- Resilient and regenerative operations.
- Governance, policy, and regulatory alignment.
- Sustainable services and operations in non-industrial sectors.
- Technology-driven circularity and strategic sustainability in operations.
- Embedding stakeholder-centric ESG strategies in sustainable operations.

We look forward to receiving your contributions.
