

Special Issue

Theories and Methods of Positive Organizational Behavior

Message from the Guest Editors

This Special Issue aims to incorporate positive organizational behavior into a broader research perspective and provide new insights into the design and enhancement of positive organizational behavior theories and methods in the future based on cultural background differences, carbon peaking, and carbon neutrality, forging a community of shared future for humankind, and the post-pandemic era context. We welcome topics addressing, but not limited to:

- The historical evolution of positive organizational behavior research;
- Theories and methods of positive organizational behavior based on cultural contextual differences;
- Positive organizational behavior in the context of carbon peak and carbon neutrality;
- Positive organizational behavior in forging a community of shared future for humankind;
- Positive organizational behavior in the post-pandemic era.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits
