

Special Issue

Recent Advances in Monitoring, Modeling and Treatment of Water and Wastewater

Message from the Guest Editors

In recent years, environmental matters, especially water pollutants, have become a critical issue for human beings. The current Special Issue aims to attract recent advanced findings for the monitoring, modeling, and treatment of various hazardous pollutants and contaminants in water and wastewater resources, which are the keys to the development of scientific prevention strategies aiming to save our environment. Scientists, researchers, academics, and professional engineers are encouraged to submit their hot and new high-quality works on the matter. We welcome the submission of research manuscripts, review papers, theoretical studies, and short communications that scientifically include new strategies and perspectives discussion. As , I invite you to contribute your work to this Special Issue of Sustainability. Original research papers and focused reviews are invited for possible publication in this Special Issue.

I hope that this invitation receives your favorable consideration.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
