

Special Issue

Interconnected Realms of Health, Well-Being, and Sustainability: Navigating Interdisciplinary Dialogues and Future Directions in the 21st Century

Message from the Guest Editors

The scientific backdrop against which this Special Issue takes shape underscores the interconnectedness of human health, well-being, and environmental sustainability. Emerging research increasingly highlights the intricate relationships between these three themes. Concurrently, mounting evidence indicates that this broader perspective on health and well-being is intrinsically linked to environmental sustainability. By exploring the intricate nexus of health, well-being, and sustainability, this Special Issue will promote a deeper, more nuanced understanding of these essential facets of our contemporary world. The primary aim of this Special Issue is to advance scholarly discourse on the complex intersections of health, well-being, and sustainability. We seek to catalyze interdisciplinary dialogue, promote cross-sector collaborations, and inspire innovative research that resonates with the broader scope of our journal. In doing so, we hope to provide a platform for robust intellectual exchange that encourages integrative thinking and inspires novel solutions for the manifold challenges in these critical areas of inquiry.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
