Tourism, Sharing Economy, Culture and Heritage

Message from the Guest Editors

The tourism sector has undergone a notable evolution in the last fifteen years. To talk about this sector, we not only have to take into account the traditional hotel industry, but figures such as tourist apartments, campsites and other elements related to the sharing economy. Likewise, the effect of culture and heritage on the "new" tourism sector and the traditional one is of great importance. On the other hand, given the health crisis derived from COVID-19, the tourism industry has been affected, expecting a latent recovery in the short term.
