

## Special Issue

# Food Systems, Bioeconomy Models and Innovation for the Territorial Revitalization of Marginal Areas

### Message from the Guest Editors

The main aim of this Special Issue is to explore various dimensions of territorial revitalization strategies to overcome marginalization, including those based on the revalorization of sustainable food systems and innovating bioeconomy models in marginal areas. Different research perspectives and scientific approaches will be considered in order to identify challenges of environmental and socio-economic benefits as well as scrutinize how sustainable food systems, bioeconomy models and innovative territorial revitalization strategies can provide opportunities to develop and enhance the spatial quality of environment in marginal territories. For further reading, please visit the Special Issue [website](#).

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
