

Special Issue

Sustainable Transportation Infrastructure for Achieving the UN Sustainable Development Goals

Message from the Guest Editors

This Special Issue is comprised of significant results coming from sustainable transportation infrastructure research studies whose results demonstrate a clear contribution to successfully achieving the United Nations Sustainable Development Goals. Thus, several SDGs were addressed. This Special Issue also includes research studies regarding LCA, LCCA, and smart and sustainable materials and technologies.

We are pleased to invite you to contribute to the Special Issue entitled “Sustainable Transportation Infrastructure for Achieving the UN Sustainable Development Goals,” which aims to collect outstanding research consisting of sustainable transportation infrastructure research studies whose results demonstrate a clear contribution to successfully achieving the United Nation Sustainable Development Goals. Thus, papers regarding the study of LCA, LCCA, and sustainable and smart materials and technologies are suitable to be considered for publication. The deadline to receive your work is the 31st of October 2021. We are looking forward to receiving your manuscript.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief
