

## Special Issue

# Tropical Dry Forest Restoration in an Era of Global Change: Ecological and Social Dimensions

### Message from the Guest Editors

Special Issue "Tropical Dry Forest Restoration in An Era of Global Change: Ecological and Social Dimensions" focuses on documenting the ecological and socioeconomic complexity of tropical dry forest regions and the evidence needed to underpin restoration and conservation practices. Papers will be framed within the socioecological context of restoration including the indicators for measuring success in the practice for the recovery of the ecosystem function and the ecosystem services that biodiversity provides. This Special Issue will offer findings that address the challenge for a sustainable restoration practice of tropical dry forest landscapes for the benefit and joy of future generations. Beyond review papers, manuscripts describing new research, methodological approaches to their restoration and new theories are also welcome.

### Guest Editors

Prof. Julio Campo  
Dr. Christian Giardina  
Prof. Rodolfo Dirzo

### Deadline for manuscript submissions

closed (30 April 2022)

# About the Journal

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
