

Special Issue

Sustainable Challenges and Development of Public Mental Health

Message from the Guest Editors

In public mental health, an important and sustainable focus should be placed on preventing the growing number of mental problems, identifying people at risk for mental health issues, and helping them with their problems. This requires scientific evidence in a variety of mental health areas and scopes. Below are some of the issues that could be addressed in particular in this Special Issue on "Sustainable Challenges and Development of Public Mental Health".

- Mental health issues in various mental health facilities or settings;
- Implementation of national sustainable mental health-related projects to promote sustainability of mental health and improve the quality of life of people with mental illness;
- Sustainability of mental health through linkages and cooperative support of various resource;
- Understand the operation status and level of sustainable mental health projects;
- Sustainable mental health-related factors and prevention strategies;
- Data for conducting evidence-based mental health projects.

I look forward to receiving your contributions.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada
