Special Issue

Ecohydrological Research Toward Sustainable and Resilient Watershed Management

Message from the Guest Editors

The Sustainability Special Issue entitled 'Ecohydrological Research Toward Sustainable and Resilient Watershed Management' will receive relevant contributions to the theme, specifically looking at the following: (1) Identifying novel technologies in ecohydrological science and nature-based solutions for the sustainability and resilience of freshwater systems, focusing on theoretical and practical approaches, indicators, methodologies, and case studies. (2) Presentation and discussion of new insights in ecohydrology and IWRM, updating the existintg liteterature with new approaches and practical applications. The Special Issue will contribute to improve the security and resilience of freshwater systems, mitigating the impacts of water-related hazards such as floods, droughts, abstraction, pollution, and sedimentation, safeguarding access to water functions and services, managing water resources in an integrated and equitable manner. You can find more information on the aims and scope of our journal at the following

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
