# **Special Issue**

# Inclusive Tourism and Its Place in Sustainable Development Concepts

Message from the Guest Editors

The aim of this Special Issue is to showcase the progress made in current research and the literature on inclusive tourism, considered in the context of different concepts of sustainable development.

In particular, this Special Issue of the peer reviewed journal Sustainability aims to expand the discussion and scholarly debate on different perspectives, trends, approaches, cases, impacts, challenges, models, and/or frameworks related to inclusive tourism.

Inclusive tourism is broadly understood as ensuring that everybody has access to and enjoys spaces, communities, land, hospitality, services, food, paths, and mobility. In this way, it contributes to social wellbeing, brining happiness to people and ensuring that everybody, with no exceptions, is able to enjoy the beauty of tourist places and participate in various tourist activities.

The development of inclusive tourism aims not only to expand access to consumption, production, and benefit sharing at existing tourist destinations but also to draw a new map of tourist places and experiences and the interactions that accompany them.

# **About the Journal**

## Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in Sustainability, an international open access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. The journal publishes original research articles, reviews, conference proceedings (peer reviewed full articles) and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

## Editor-in-Chief

Prof. Dr. Steve W. Lyon

School of Environment and Natural Resources, Ohio State University, Columbus, OH 43210, USA

### **Author Benefits**

## Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

## **High Visibility:**

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPlus / SciFinder, and other databases.

### Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1 (Geography, Planning and Development)
