

Special Issue

Universities, Industries and Sustainable Development

Message from the Guest Editors

A growing number of universities around the world are committed to integrating the principles of sustainable development into teaching, research, and campus operations, but many critical questions remain about collaboration with industries to advancing sustainable business models. In this Special Issue, we are interested in deepening the way in which the different collaboration models between universities, businesses, and other public and private actors can bring together the knowledge, resources, and technologies necessary to face the challenges of sustainable development, with particular regard to training the necessary skills to create the rigorous research-based knowledge necessary for the innovation of technologies and business models; support and incubate innovation for sustainable development solutions; and collaborate with businesses and government at all levels and civil society to promote policy development for sustainable production and consumption.

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
