

Special Issue

Transitioning to Sustainable Energy: Opportunities and Challenges

Message from the Guest Editor

About this Special Issue: Key Themes: Includes but not limited to:

- Innovations in Renewable Energy Technologies: Latest advancements and future directions in solar, wind, hydro, and other renewable energy technologies.
- Policy and Regulatory Landscape: Examination of current policies, regulatory frameworks, and potential reforms to support sustainable energy initiatives.
- Economic Impacts and Opportunities: Analysis of the economic benefits, challenges, and potential job creation linked with the transition to sustainable energy.
- Sustainable Energy in Developing Countries: Exploration of unique challenges and solutions for implementing sustainable energy in developing regions.
- Corporate Strategies and Sustainable Practices: Case studies and best practices from corporations leading the way in sustainable energy adoption.
- Public-Private Partnerships: Examples of successful collaborations between public entities and private sectors to promote and implement sustainable energy projects.

Why Contribute:

- ***Reach a Global Audience.***
- ***Impactful Research.***
- ***Collaborative Opportunities.***

About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
