

## Special Issue

# Entrepreneurship, Innovation, and Sustainable Work and Organizational Practices

### Message from the Guest Editors

This Special Issue aims to deepen the understanding of how entrepreneurial activities intersect with psychological processes at the individual, team, and organizational levels. We encourage contributions that examine how digital transformation affects entrepreneurial intentions, work engagement, and identity development.

Suggested themes include (but are not limited to) the following:

Role of social and sustainable entrepreneurship in promoting individual and collective well-being;  
How education and training in organizational contexts shape entrepreneurial mindsets and competencies;  
Strategies for integrating sustainability into organizational culture, leadership, and HR practices;  
Influence of individual differences and contextual factors (e.g., values, identity, workplace climate) on sustainable entrepreneurial behavior;  
Generational perspectives and social representations related to entrepreneurship and sustainability;  
Balance between individual well-being and organizational objectives in entrepreneurial contexts;  
Interplay among innovation, skill development, and psychological resilience in entrepreneurial ecosystems.

### Guest Editors

Dr. Diego Bellini

## About the Journal

### Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.
