

Special Issue

The Role of Industry 4.0 and Industry 5.0 Technologies in Achieving the Sustainable Development Goals in the VUCA World

Message from the Guest Editors

Sustainable Operations and Supply Chain Management (S-OSCM) (Caiado et al., 2022) faces dynamic changes brought by the chaos of VUCA (volatility, uncertainty, complexity, and ambiguity) environments (Nowacka and Rzemieniak, 2022) that impact the functioning of companies. This VUCA world demands greater agility and adaptability from leaders who need to make “continuous changes in people, processes, technology, and structure” (Horney et al., 2010). The industry has undergone changes that directly affect companies and workers, and which were introduced with digital or disruptive technologies arising from the fourth industrial revolution (Caiado et al., 2021). This Special Issue encourages researchers from a variety of fields interfacing with new theories and applications related to I4.0, Society 5.0, or I5.0, and the Sustainable Development Goals. About the Journal

Message from the Editor-in-Chief

I encourage you to contribute a research or comprehensive review article for consideration for publication in *Sustainability*, an international Open Access journal which provides an advanced forum for research findings in areas related to sustainability and sustainable development. *Sustainability* publishes original research articles, review articles and communications. I am confident you will find the journal contributes to enhancing understanding of sustainability and fostering initiatives and applications of sustainability-based measures and activities.

Editor-in-Chief

Prof. Dr. Marc A. Rosen

Faculty of Engineering and Applied Science, University of Ontario
Institute of Technology, Oshawa, ON L1G 0C5, Canada

Author Benefits

Open Access:

free for readers, with article processing charges (APC) paid by authors or their institutions.

High Visibility:

indexed within Scopus, SCIE and SSCI (Web of Science), GEOBASE, GeoRef, Inspec, RePEc, CAPIus / SciFinder, and other databases.

Journal Rank:

JCR - Q2 (Environmental Studies) / CiteScore - Q1
(Geography, Planning and Development)
